ABOUT US

ME Decor Group OÜ

was established in 2021 by enthusiastic and professional people with more than 10 years of international experience in flooring and design industries.

ME Founders

In 2021 Max and Eugene felt they were ready to create a company that would be able to find a way to any project or person. Well ... almost any ... by choosing the right product and providing top service in complex.

A unified approach to life values and principles in business helped shaping the direction of the company. The key value - "Honesty is the best policy. You can't go wrong if you bet on transparency, professionalism and deal with people you trust!"

The main aim is to develop ME Decor Group OU as a high-tech company with professional and efficient up-to-date services and ideas.

Light, stylish, straight

Satin

ME EXPERIENCE

"Beauty is the harmony of purpose and form". - Alvar Aalto

Wooden floor is a perfect selection for public spaces such as hotels, cafes, airports, libraries, concert halls etc. To choose the right wooden solution for such a location, in addition to a fitting decor, pattern and feeling, it is necessary to pay attention to the scope of use. For a public space, such as a hotel room, engineered oak flooring is often used in soft browns or natural wood shades in their organic grades protected by UV Silk finish. The combination of all these properties helps flooring to be pleasant to look at, fit into many hotel interiors and contributes to its long life despite heavy traffic and stressful daily use.

First impression is decisive

The most important thing when choosing anything in your home design, not only flooring, is that you feel comfortable with it.

Own Interior Intuition

Whose opinion is correct? The one of your designer? The professional view of your builder? The image created by fashion and trends? Make your own choice. You will live with it, feel it and look at it daily.

PHILOSOPHY

Hygge

Scandinavians' Peace and
Happiness Philosophy at Home

White Snow

Hygge refers to “being enveloped with a sense of unity and security”; a simple, safe feeling, created by seemingly minor details.

This idea of a nest-like haven arose due to the region’s harsh climate: when the weather is cold, the ground is icy and the skies often dim, the home is considered a warm, safe refuge.

PRODUCT

Product specification:
Hardwood Flooring
White European Oak
Single Strip Plank
2-layer T&G
15/4 x 190 x 2100 mm
UV Silk finish

OLD CANVAS

PLANKS

Designed by Annekodesign

01

Big spaces often lack wide and long boards.
ME Floor creat planks fitting any space.

HERRINGBONE

Designed by Annekodesign

02

Herringbone flooring or "Fiskbensparkett" is a traditional Scandinavian pattern that suits every design.

01

Chevron is the fastest growing
in popularity flooring pattern.

White Snow

02

Chevron floor is an investment that adds value to any apartments.

Dusk

03

Chevron makes public and private spaces more individual while keeping them neither pretentious nor complicated.

INSPIRATION GALLERY

Wooden floors make every project better: natural, warm and comfortable. Mosaic flooring has even more - rich history spanning thousands of years. Known for exquisite design, patterns vary in executions from the intricate mosaic floors of ancient Greece, Rome and nostalgic mosaics in family houses to modern restaurants, museums, halls and private villas.

INSPIRATION GALLERY

Scandinavian style is primarily associated with light, natural and cozy shades.

Nord

INSPIRATION GALLERY

Wood floor can create a contrast - deep dark shade might help maintain the style and emphasize details.

Venice

INSPIRATION GALLERY

Chevron flooring pattern, a favorite among designers, features a striking V-shaped design created by fitting wooden planks at precise angles. Its dynamic zigzag layout adds a touch of sophistication and visual interest to any space. Loved for versatility, Chevron pattern complements both modern and traditional aesthetics, offering a timeless yet contemporary look.

Sepia

Just live
your best life.

Grey Smoke

White European Oak is the heart of ME Floor Scandinavian Designer Flooring. It is White European Oak natural tone and texture that allow creating maximum variety of colors and decors on a flooring surface.

WOOD SPECIES

White European Oak (*Quercus*)

- Hardwood (Janka - 1120; Density - 720-750 kg/m³)
- Wood color perfect for the widest variety of decors
- Texture reasonable for interior use
- Impact and scratch resistant due to high density
- Structurally durable
- Wood surface perfect for numerous treatments (staining, brushing, scratching, aging, smoking etc.)
- Recommended for floor heating

Ash (*Fraxinus excelsior*)

- Hardwood (Janka - 1320; Density - 700 kg/m³)
- Wood light color perfect for white shades (stains)
- Texture brighter than Oak but reasonable for interior use
- Impact and scratch resistant due to high density
- Structurally durable
- Wood surface perfect for numerous treatments (staining, brushing, scratching, aging, smoking etc.)
- Recommended for floor heating

American Walnut (*Juglans nigra*)

- Hardwood (Janka 1010; Density - 610 kg/m³)
- Unique natural texture perfect for some styles
- Scratches and dents almost invisible on natural dark surface
- Bright color variation from white to dark might occur
- Softer than Oak/Ash but reasonable for interior use
- More prone to cracking than Oak/Ash when installed over floor heating
- Sensitive to direct sunlight, prone to shading and fading

Birch (*Betula*)

- Hardwood (Janka 930; 690 kg/m³)
- Perfect for use in flooring base/core (plywood; lamellas)
- Allows creating moisture resistant properties in plywood
- Structurally durable
- Recommended for floor heating

STRUCTURES

Core:

2-layer Engineered

- Top lamella - Solid hardwood (3/4/6 mm)
- Base - Birch waterresistant plywood
- Profile - T&G
- Bevel - 4 sides
- Floor heating - Recommended
- Installation - Gluedown; Semifloating
- High balance and stability
- Formaldehyde - E1; ULEF (CARB 2)

Optional:

3-layer Click, T&G

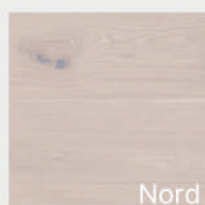

- Top lamella - Solid hardwood (3/4 mm)
- Core - Softwood
- Bottom - Softwood
- Profile - Click, T&G
- Bevel - 4 sides
- Floor heating - Recommended
- Installation - Floating; Gluedown
- Balance and stability
- Formaldehyde - E1; ULEF (CARB 2)

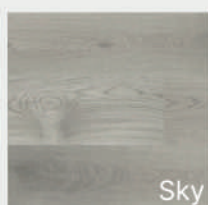

Solid

- Solid traditional hardwood (15/16/18/20 mm)
- Profile - T&G
- Bevel - 4 sides
- Floor heating - Not Recommended
- Installation - Gluedown
- Sanding - > 6 times
- Formaldehyde - E1; NAUF (CARB 2)

- **surfaces**
- **colors**
- **finishes**

Don't limit your imagination!

Dear Friends and Partners!

Hope You enjoyed this catalogue and it intrigued you to order a ME Floor sample or talk to our Team about an ongoing project.

ME Floor Team worked hard to develop the range reflecting Scandinavian design and latest market trends. We plan that a new version of ME Floor catalogue should already have exclusive "curved patterns" and more implemented interiors.

At ME Floor we think that human touch is a small thing making a huge difference in everything. No wonder, in business we believe in building more than just professional relations with Partners and Customers. Humane and dedicated approach to daily work conquers any challenges and opens a lot of new opportunities.

Sincerely Yours,
ME Floor Team.

Wood is a natural material with every piece unique. Flooring colors displayed in printed catalogs vary depending on paper type, lamination and printing technology. Some difference btw real floors and reference pictures is normal due to this reason.
