PRODUCT USE

INSTALLATION STORAGE & USE

Glue down over concrete, plywood or wooden subfoor or nail down over wooden subfloor. Semifloating installation as well. Applicable above, on and below ground level. Suitable for underfloor heating.

Air Humidity Temperature 40-65% +18°C ... +22°C (64°F ... 72°F)

CARE & MAINTENANCE

Maintenance of hardwood floors with UV Silk assumes normal (daily if necessary) cleaning from dust and grit using a vacuum, followed by a thorough cleaning with floor cleaner. Floor surface areas that receive the most traffic and get worn down quicker, such as areas by the front door, hallways, kitchens etc., should be periodically renewed with oil.

Flooring colors displayed in digital platforms may vary according to the color settings of the monitor you are using.
