## ME Floor Grades and Decors

TM ME Floor products are available in 3 grades: Select, Nature and Character. All grades are a good choice for your floors and will mainly create aesthetic difference contributing to a particular floor design.

Typically, wood in Select grade has the most uniform appearance with few knots and a consistent color.

Nature grade has a slightly more natural look with some knots and color variation.

Character grade floors have the most natural appearance with filled and open knots, cracks and other natural features visible, making wooden planks look “live” and reveal their unique texture and character.

It's important to keep in mind that changing the grade of the flooring for a chosen color might completely edit the overall look of a chosen floor. Uniting such features as color variation, wood defects (knots, cracks, warms wholes, bark pocket, discoloration, sapwood etc) - grades affect the overall aesthetic of a space and can impact the mood and ambiance of a room.

### 1. Select Grade

Product clean look is created by minimalistic natural wood color variation, occasional small knots up to 10mm, as well as rare light sapwood almost not visible on the surface due to careful decor selection.

#### Light Shade. Select Grade

#### Dark Shade. Select Grade

## 2. Nature Grade

Nature grade looks pretty clean in 190 mm width and more. Though, any natural wood might vary. Surface allows reasonable burls, light brown streaks, some restored knots, properly filled open checks and worm holes. Slight imperfections in face work (torn grain) and burns are admitted.

### Light Shade. Nature Grade

### Dark Shade. Nature Grade

## 3. Character Grade

Character Grade creates an effect of antique wood and emphasizes authentic natural oak texture. Planks may contain diverse color variation, sapwood, unlimited burls, brown streaks, tight knots and properly filled open knots, warm holes as well as other imperfections in the face work (torn grain) to design advantage.

### Light Shade. Character Grade

### Dark Shade. Character Grade

# ME Decor

This is not enough to pick just a color (stain) when choosing a wooden floor. Looking at the overall Decor is really important. Decor is a combination of such parameters as wood species, color, grade, surface treatment (brush type, bevel etc), finish. Decor is the way how a chosen color is revealed on a chosen wood surface with a particular wood grade. Paying attention to the same when ordering a non-standard product is even more important to create the right expectation of the result.
